# Smart Start Summer Camp 2020

*“Back to Nature”*

Are you ready for a spectacular Summer? This Summer, our campers will be getting back in touch with Nature! We have 8 weeks of fantastic activities planned in alignment with 4 main topics- **Go Green, Wild Life Conservation, Food Waste/Nutrition, and Gardening**. Along with weekly yoga, swimming, P.E. and drama play which will get our bodies moving, we will experience fun science, arts, storytelling, field trips and challenging games in which we beg the questions: *Why is recycling important and how can I make an impact to my environment? How can we care for endangered animals and plants? What is nutrition and how can eating healthy food affect our body? How can we work together to minimize food waste?* From going on Nature walks in which campers observe insects, to gardening the backyard where they get a chance to grow their own vegetables, we thereby experience how biology works first-hand! In addition, campers will most importantly, walk away with the ability to demonstrate team work, personal accountability, responsibility for personal actions as it relates to the environment!
