

Summer Camp 2022 at Smart Start

THE WORLD AROUND ME

An unforgettable adventure, for curious globe-trotters!

From Tokyo to Cape Town, come on a lush and unexpected journey around the world to discover the many things that make each place unique. You'll be surprised by what you find along the way!

In these 8 weeks of Summer, we'll explore cities and cultures together through drama play, cooking, music, art, story-telling, swimming/water-fun, and not to mention... incredibly fun STEAM activities!

Beyond role-playing with passports and airplanes, we'll go on many action-packed indoor-outdoor adventures, and learn to collaborate in teams through cooking and tasting cuisines together! For the older campers, we will also learn geographical maps!

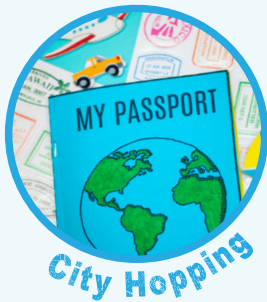

By the end of the journey, our little campers will walk away with the confidence to take on challenging risks, as well as a broadened world view to find new ways of looking at things. So...what are you waiting for?!
